

WHAT WE KNOW

A recent study where horses were submitted to intense exercise on a treadmill demonstrated significant changes in biomarkers of inflammation and antioxidant status.⁽¹⁾

AUDEVARD SOLUTION : EKYFLEX NODOLOX

- ✓ **Boswellic acid** (*s.f. Boswellia serrata*)
- ✓ **Salicin** (*s.f. Salix alba*) titrated
- ✓ **Quercetin** (*s.f. Plant flavonoid*)

USES

- 1 Nutritional support for :
 - Symptoms associated with inflammation
 - Symptoms associated with oxydative stress
- 2 Muscle, back and joint discomfort in the competition horse

EKYFLEX NODOLOX

MOBILITY

Description

All horses, regardless of their activity, experience strain affecting their musculoskeletal system and spine. Repeated strain may lead to discomfort or stiffness, and creates specific nutritional requirements. Sport horses are subject to strict doping restrictions, and certain ingredients are prohibited during competitions.

Purpose

EKYFLEX NODOLOX is a complementary feed formulated by AUDEVARD Laboratories. It is designed to provide nutritional support for sport horses with increased musculoskeletal needs during competitions.

Formula

The EKYFLEX NODOLOX formula relies on a combination of plants: white willow, boswellia and quercetin, and is rounded off with omega-3.

Our advice

Recommend EKYFLEX NODOLOX FLASH to customers who are often away for competitions, as its syringe format is easy to carry. EKYFLEX NODOLOX FLASH is equivalent to a double measure of EKYFLEX NODOLOX pellets.

Daily allowance

1 measure: 30 g
1 to 2 measures per day for 30 days. Repeat as required.

Professional Format

600 g box - (EAN 3401198670025). Sufficient for up to 20 days' use.
1.2 kg box - (EAN 3515650360369). Sufficient for up to 40 days' use.

Composition

Additives (per kg):

2b- aromatic substances: white willow (*Salix alba* - titrated to 25% salicylic acid) 66,7g, boswellia (*Boswellia serrata* - standardized to 65% boswellic acid) 21,7g, *Stevia rebaudiana* 10g, apple aroma / Vanilla 20g

Raw materials:

Lithothamnion, molasses sugar beet, microfine alfalfa, barley microfine sucrose, microfine carob microfine yeast (platinum), hydrolysed fish (Omega 3), quercetin.

Analytical constituents:

Humidity <10%, crude protein 15%, crude fat 2%, crude ash 5%, crude fiber 1.2%, sugar starch 20%, calcium 7.5%, sodium 0%

This product belongs to the complementary feed for horses category.
