- Eliminates all insects: flies, horse flies, ticks, culicoides...
 - Insecticide effect: permethrin + deltamethrin
 - Repellent effect: icaridin
- More concentrated formula:

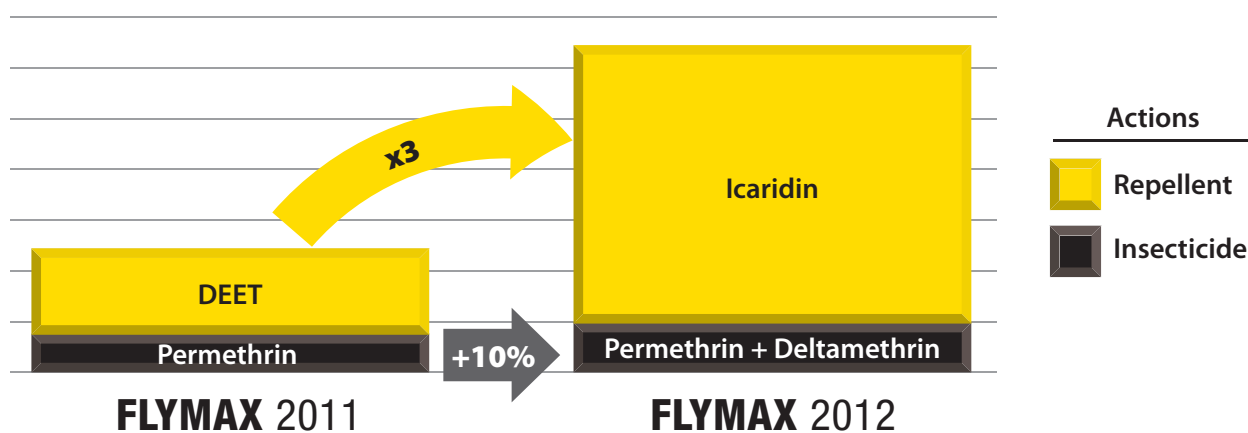

Fig: Formula development

Composition for 100 g: Icaridin (CAS no 119515-38-7) 5.82g, Piperonyl Butoxide (CAS no 51-03-6) 0.85g, Permethrin (CAS no 52645-53-1) 0.65g, Deltamethrin (CAS no 52918-63-5) 0.016g, Perfumed excipient QS 100g.

> Optimal product adherence

- Long lasting concentrated solution of the active ingredients
- Forms a protective film which increases resistance to water

> User-friendly and pleasant

- Silent multi-jet applicator
- Allows 25 optimal applications of 40 ml
- Pleasant fragrance: mint and eucalyptus

FLYMAX

> Presentation:

- 1 Lt spray bottle for 25 applications
EAN Code 4494223
- 400 ml spray bottle for 10 applications
EAN Code 9866965

In practice

For maximum efficacy, follow these instructions for use:

- 1- Spray evenly over all areas exposed to insects
- 2- Pump the applicator 40 times (1 pump = 1 ml) for each application
- 3- Repeat the application every 2 days during the first week then gradually reduce the number of applications.
- 4- Always repeat the applications after washing

S56: Dispose of this material and its container at hazardous or special waste collection point. Do not reuse the container.

Improved formula

> For an overall solution: Combine with FLYMAX DERM

- Protective skin balm
 - Helps soothe itching
 - Promotes healing

Sweet itch and Culicoides

The phases of activity of Culicoides – the insects responsible for sweet itch – are mainly at dusk. It is therefore advised to apply the protective skin balm at early evening for maximum protection.

Composition: Benzyl Benzoate 10%, Calendula, Chlorhexidine, Calendula, Allantoin, Lavandin EO, Pink Geranium EO, Eucalyptus EO, Plantain (extract), Aloe Vera.
